

PRT00131 Two-Wire Indicator Light/Test Switch (2W-ITS) on Wall-Plate.

Model #: PRT00131

12NC: 913702453801

Two-Wire Indicator Light/Test Switch
(2W-ITS) on Wall-Plate.

Specifications:

- Kit includes low-voltage 1/2" diameter pushbutton test switch (two-wire) with integral charging indicator LED (2W-ITS) on a single gang wall-plate (single gang junction box not provided).
- This kit is primarily used with most emergency LED driver products for downlight fixtures, like the BSL17C-C2 (Ordering code BSL17CC2T1U, 12NC 913702454801).
- Two-wire test switch/charging indicator LED lead wires are 6" long. They connect to the appropriate lead wires on the emergency unit as shown in that unit's installation instructions.
- Kit is similar to PRT00130 except it includes a wall-plate instead of the bushings, tubing and tie-wrap. PRT00130 is primarily used with linear luminaires while PRT00131 is used for downlights.
