

PRT00003 Test Switch (3/8" diameter) and Charging Indicator Light on Wall-Plate

Model #: PRT00003

12NC: 913710855902

Test Switch (3/8" diameter) and Charging Indicator Light on Wall-Plate

Specifications:

- Kit includes high-voltage (277VAC) 3/8" diameter single-pole pushbutton test switch (two-wire) with charging indicator LED on a single-gang wall-plate. It also includes bushings required for mounting charging indicator light and caution labeling for luminaire.
- Kit is primarily used as a special option for the B94CGU emergency ballast for 4-pin compact fluorescent lamps.
- Refer to product installation instructions for assembling bushings and installing the charging indicator LED and test switch.
